Official Paper of the County and Village

SATURDAY, MARCH 20, 1880.

BUREAU:**The Black River Improvement In-****terest—\$45 Shares—\$10,125 of the Stock****Subscribed**After many months of labor and agita-
tion of the subject, we now have the
pleasure of announcing that the success
of the improvement of Black river is as-
sured by the subscription of 645 shares.
\$10,125 of the stock, which under the
resolution of the Board of Control,
will secure the land grant of 7,600 acres,
with \$1,125 spare. That this was done
at this time we are indebted to the pub-
lic spirit of W. S. Humphrey, who this
morning stepped forward and in behalf
of himself and others subscribed \$3,050
which made the gross subscriptions ex-
ceed the amount required by the Board,
although not enough to complete the
work. There should be no doubt that
those who are even more interested in
the success of the enterprise than the
ones who have already subscribed, will
now that the land grant is secured, come
forward and take what stock may be
necessary to complete the work.The stockholders of the company will
hold a meeting at an early day at which
officers will be elected, when the organ-
ization of the company will be fully per-
fected in accordance with law. The
Board of Control at its next meeting, the
31st inst., will be asked to ratify its
former proceedings, which will probably be
consummated by entering into a formal
contract with the company to complete
the work as proposed. At the meeting of
the stockholders it will probably be de-
cided just when and upon what plan the
work will be done. We sincerely hope
for the good of the country at large that
they will decide to complete the work
this season.That all may fully understand to
whom they are indebted for the success
of this great enterprise we subjoin the
list of the stockholders with the amount
subscribed:

Examination for Color Blindness.A few weeks since we noticed an order
from the Treasury department requiring
the examination of pilots for color
blindness. This order has been so mod-
ified, by a recent circular from the de-
partment, as to allow pilots employed at
places remote from a marine hospital
station to be examined by any respect-
able resident physician, whose certifi-
cate that such pilot is exempt from the
disease known as color blindness, shall
accompany the license and oath of office
of such officer, when sent to any board
of local inspectors for renewal of his
license in the manner provided in rule
42, Rules and Regulations. Upon re-
ceipt of certificate, a license shall be is-
sued the same as though said examination
had been made by a marine hospital
surgeon. This modification is not to be
applied to applicants for original
licenses; that, in all cases, must be ex-
amined in the manner provided in cir-
cular No. 14. A second visual examina-
tion will not be required in any case,
and inspectors will therefore retain all
certificates upon their permanent files
for reference in cases of applications for
renewal of licenses.**Farms and Farm Products in Macki-****nac County.**From the annual report of the Sec-
retary of State we take the following in-
formation as to farms and farm products of our
neighboring county. Like the returns
from Cheboygan county, which we gave
last week, they are evidently not full,
only one township in the county, Moran,
being returned, so that while credited to
the whole county, they are really only
returns from Moran township.The total number of acres of improved
land in 1879 was 246. One acre was re-
turned as planted in wheat in 1878,
yielding 14 bushels and ranked 74 in the
state as to average yield.The total number of acres in farms in
1878 was 1,198, of which 346 acres were
improved and 852 unimproved. There
were 16 farms averaging 74.88 acres.In 1878 there was one acre planted in
corn, yielding 21 bushels; 30 acres in
oats, yielding 160 bushels; 13,500 acres in
potatoes, yielding 150 bushels; 177
acres in grass, giving 79 tons of hay.In May, 1879, there were 25 horses, 47
milk cows, 37 cattle other than milk
cows, and 10 hogs.The report gives 28 bushels of cherries,
plums, currants, and berries raised and
sold in 1878.On Saturday the 14th of February the
mail carriers from Mackinac while cross-
ing the straits saw a chair, dust pan and
broom floating in the ice. It is thought
probable that it was a portion of the
furniture of the Odell family, lost on
Lake Michigan the latter part of January
while attempting to go from Beaver
island to Little Traverse. She is to have a
never mentioned the fact until the first
of this week. If they had done so it is
possible, should the supposition that it
was a part of their household effects be
correct, that a search might have dis-
covered the bodies of some of the ill-
fated family.**Northern Transit Line.**The following are the appointments

Empire—not appointed.

Barges—O. J. Hale, Capt. L. Tracy; H.
F. Church, Capt. H. Morey; A. C. Keat-
ing, Capt. Geo. Cochran.Two of these boats will ply between
Toledo and Sarnia (also in connection
with the Grand Trunk), but which two
are not yet determined upon. The boats
now running between Chicago, Milwau-
kee and Ludington will take their places
on the Chicago and Sarnia line as soon
as the straits are open.**Cross Village State Road Bids.**In accordance with the provisions of
the advertisement, last Monday after-
noon Local Commissioner R. Robinson
opened the second lot of proposals for
the construction of the Cheboygan and
Cross Village state road. The hour set
was two o'clock, and at that time most
of the bidders, and a few interested spec-
ulators, were on hand. The bidding was
delayed until nearly three, under the ex-
pectation of another bid which, it was
understood, was coming in, but it did
not. The proposals were then opened
and were as follows:

Shareholder	Shares	Am't
W. B. Ellis, whole road	1	\$12,400.75
Elias M. Peck, whole road	1	12,220.00
C. P. Sweet, whole road	1	12,220.00
M. W. Horne, whole road	1	12,220.00
M. W. Horne, first five miles	1	5,300.00

Some time later James McAllister
brought in a bid for the last 3 1/4 miles at
\$2,240.00, which was accepted by Com-
missioner Robinson, he being satisfied
that it was made upon calling the opening
of the other bids, and will be sent to the
Board of Control with the rest for the
final action. The lowest bid was C. P.
Sweet, of Kalkaska, which will probably
be accepted by the Board, although \$2,000
higher than the one thrown out at the
previous letting for some slight informal-
ity.**Two Mullet Lake Houses.**It seems to be a settled fact that there
are to be two hotels on Mullet Lake called
the "Mullet Lake House." Smith Bros.
have decided upon that name for their
new hotel, and have advertised it as
such, far and near, so that it would be
impracticable for them to change the
name without considerable trouble and
expense to say nothing of the loss of the
advertising so far done. Herman Kohler,
before he was aware that Smith Bros.
had settled upon the name for their hotel,
had taken out a lease on the opening of
the Mullet Lake House, and has also
advertised it quite extensively in the
advertising so far done. Herman Kohler,
before he was aware that Smith Bros.
had settled upon the name for their hotel,
had taken out a lease on the opening of
the Mullet Lake House, and has also
advertised it quite extensively in the
advertising so far done.The two houses are situated on the upper
end of the lake and bearing the same
name as the one at Point St. Ignace, con-
fusion among the traveling public who
may not be familiar with the situation.
In our opinion it would be much better
if the name of one or the other could be
changed, if such was feasible without
discommodating too greatly the arrange-
ments already made.**A Close Contest.**The village of Sault Ste. Marie held its
first election under its new charter, on
Tuesday, the 24 inst., with straight party
lines drawn. The contest was an ex-
ceedingly close one, there being a tie up-
on President, each candidate receiving
132 votes. The balance of the ticket was
mixed, the majorities running from 1 to
20. The News thinks there were 26 persons
who did not vote. This would make 300
voters. At five inhabitants to each voter,
that the basis upon which St. Louis is
larger than Chicago. Sault Ste. Marie
has 1,500 inhabitants. We are surprised
at editor Steers' recklessness. The cen-
sus man will be around in a couple
of months, and what a fall there will be.**Personal.**John Dodd left for Detroit the first of
the week.Mrs. Dr. Bowers left on the stage Mon-
day for a visit of a few weeks with her
friends in the southern part of the state.B. H. Begole arrived home from Chicago
Tuesday evening. Patrons of Nelson &
Bullen may soon expect a magnificent
line of the latest styles of new goods.Captain James W. Bennett came over
from Mackinac Saturday and left on the
stage Sunday morning. He went to get
the tug J. W. Bennett in readiness for
the season's business.Mr. and Mrs. Will C. Whiting are ex-
pected to arrive on the stage this even-
ing. We understand they will stop
with Mr. and Mrs. W. G. Boggs until that
neat little cottage is furnished and in
order.C. P. Sweet of Kalkaska, publisher of
the Kalkaskaian, was in the village
Monday looking after the contract for
building the Cheboygan and Cross Village
state road. He favored the TUMBLE
office with a call.**STEALING AN OFFICE.**That's What the Democrats at the Sault
are Accused of Doing.The Thursday evening after the vil-
lage election at the Sault, the News says
the village council met and proceeded
to manufacture a President of the vil-
lage by means of a proceeding unknown
to law or precedent. As stated in an-
other column, the candidates for Pres-
ident received the same number of votes.
The law may be a little indefinite in re-
gard to the course to be adopted by vil-
lages under such circumstances, but the coun-
cil the majority of whom were Demo-
crats, appeared to know just what they
were going to do. They decided that
the several candidates should draw lots
to see which was elected, but as the Re-
publican candidate was in Washington,
that seemed such a one-sided affair that
the Democratic candidate refused to
draw. The council then by a peculiar
law of their own proceeded to
